

The 10th China-Japan-Korea Joint Conference on Geography
and
The 1st Asian Conference on Geography

East China Normal University, Shanghai, China

October 9 - 12, 2015

First circular

1. WELCOME TO SHANGHAI

We are pleased to announce that the 10th China-Japan-Korea Joint Conference on Geography will be held in Shanghai, China during October 9 – 12, 2015. Over the past decade, this regional annual meeting has been a great success, providing a wonderful academic forum and social platform for scholars and students all around Asia. As it comes to its 10th anniversary, we pronounce a parallel conference known as “Asian Conference on Geography” to reflect this fast growth in both the number of attendees and geographical coverage, and it will make this year’s meeting even more interesting! There will be many new scholars and friends to join the academic discussions, shed light on common topics from new perspectives, and interact with unique cultural backgrounds. Please come and join us to celebrate this exciting gala of Asian geographers in the beautiful October of Shanghai.

2. CONFERENCE THEME

This year’s conference theme is **Urbanizing Asia: Diversity versus Globalization**. By selecting this theme, we recognize the rivalry between cultural diversity and globalization in the era of rapid urbanization in Asia and hope to explore many serious issues we have been facing in common, such as population, resources, environment, socioeconomics and local cultures, which require comprehensive analyses from geospatial perspectives. To emphasize this theme, the Conference plans to organize topical sessions, special panel discussions, student paper competition, urban culture expedition, riverboat night tour, and even field trips to preservation sites of local cultures.

3. SESSION TOPICS (INCLUDING BUT NOT LIMITED TO)

- S1: Low-carbon cities and climate change
- S2: Delta urban agglomeration and globalization
- S3: Urban environment simulation
- S4: Urban disasters simulation, prevention and risk assessment
- S5: Urban public safety, emergency management and urban governance

- S6: Ecological city and urban sustainable development
- S7: Urban environmental pollution and human health
- S8: Population and urbanization
- S9: The evolution of urban humanity - nature compound systems
- S10: Analysis of urban landscape and landscape evolution
- S11: Historical towns' preservation and tourism
- S12: Geographic information science, big data, and smart city
- S13: Transformation process of megacities

4. SCHEDULE

The major activities of the first day include on-site registration, opening ceremony, and welcome dinner. The next two days are mainly planned for individual topic sessions, closing ceremony, plus one evening social event and one urban/cultural expedition (optional). The very last day is featured with a field trip of two separate routes, one for touring local culture preservation sites, and the other for visiting a huge seaport project.
